22nd January 2009

We have over the past few years been unfortunate enough to have a few minor and one major accident in our cars. We have always taken them to Panels and Performance and have been more than pleased with the finished product and attention to detail by Gary and his team.

We would have no hesitation in recommending Panels and Performance for any repair work that needed to be carried out, big or small and can not tell you how happy we are with them.

Stephen and Robyn Guy.
